MORRISSETTE ET AL.
Serial No. 10/669,754
Filing Date: 09/24/03

REMARKS

Claims 37-69 remain in this application. Claims 1-36 had been previously cancelled in a Preliminary Amendment filed on September 24, 2003. No claims have been amended. Claims 48-69 had been previously added in the Preliminary Amendment filed September 24, 2003.

Applicants submit this response to correct what had previously been missed regarding the filing of this divisional case with original claims 37-47 that had been restricted in the parent application serial no. 10/283,015. At the filing of this divisional case, a Preliminary Amendment was filed that cancelled claims 1-36 and added new claims 48-69. No claims had been amended in that Preliminary Amendment.

Applicants submit a copy from the Patent Application Information Retrieval (PAIR) database showing that the Preliminary Amendment was entered on September 24, 2003. Applicants enclose a copy of the Preliminary Amendment and a copy of the return postcard indicating that the Preliminary Amendment with the divisional application had been received on September 24, 2003.

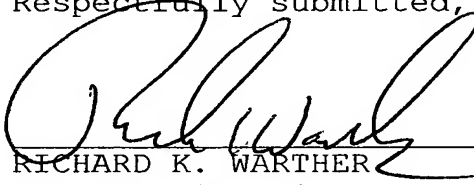

Also, Applicants note that the Information Disclosure Statements and PTO-1449 forms were filed with this patent application on September 24, 2003 and on February 3, 2004. The Office Action did not include the initialed copies of the PTO-1449 forms indicating that the Examiner had considered the Information Disclosure Statements. Applicants submit with this Amendment a copy of the PTO-1449 forms, the Information Disclosure Statement documents, and copies of the return postcards indicating that the Patent Office had
